

GRANITE STATE CUTLERY WORKS.

HARDWARE DEALERS

who want their dollar to buy just as much as any other man's dollar should read this, and fail not when ordering to specify "Made by Goodell Company."

We have had an experience of more than a quarter of a century in making cutlery. Our machinery and our methods are up to date, and we believe we can, with due modesty, say that we know how to

produce results in the quickest, cheapest and best manner. We have abundant capital, which enables all purchases of stock to be made at rock-bottom prices.

We use water power, which costs practically nothing. We can ship by freight to nearly all points North, South and West at same rates as would apply from New York or Boston.

Our line includes everything needed in any ordinary Hardware stock, and consists of Knives and Forks, Carvers, Butcher Knives and Steels, Boning, Sticking, Skinning and Hunting Knives, Butter Spades, Cheese Knives, Bread, Putty, Scraping, Cigar, Kitchen, and Shoe Knives; all of which are fully warranted.

Our new cutlery catalogue is in the hands of the printer, and will soon be ready for distribution, free to any dealer who asks for it.

We are pioneers in the Apple Parer business, having been engaged in their manufacture continuously since 1864. We make a greater variety in this line than any competitor, and more than all others combined. We have machines to pare, to pare and core, and to pare, core and slice, for hand use and for power, ranging in price from fifty cents to twenty dollars each.

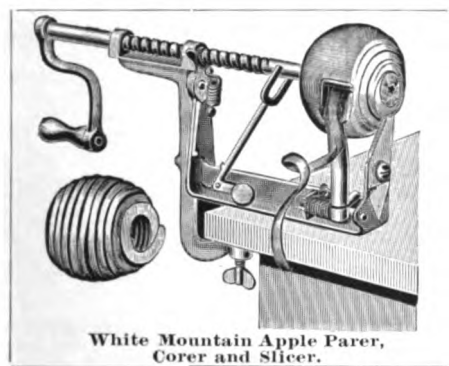

There is not, never was, and never will be any other Cherry Stoner that stones cherries like the Family Cherry Stoner. All other so-called cherry stoners mash the fruit and waste the juice. This one removes nothing but the stone. It is one of the few things that was made just right, and when a thing is right, it can't be beat.

For more than thirty years the Cahoon Seed Sower has been recognized as the standard machine for sowing all kinds of grain and grass seed broadcast. It easily holds first place to-day. It is a profitable

machine to sell, and a profitable machine to use.

We also make Potato Parers, and other useful labor-saving articles which should be in every first class stock of Hardware.

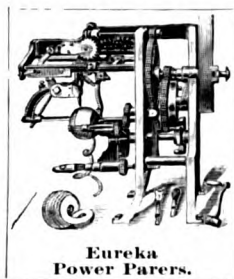

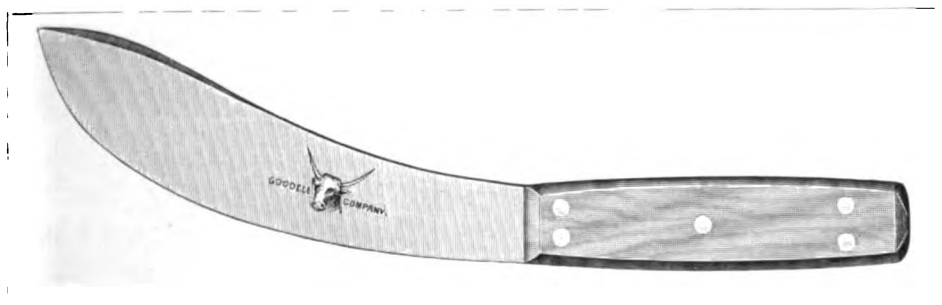

Our catalogue tells the whole story. Better send for it.

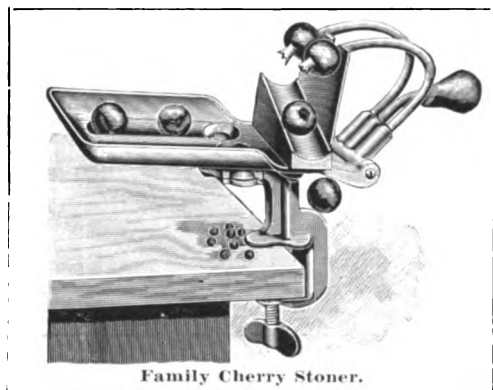

White Mountain Apple Parer, Corer and Slicer.

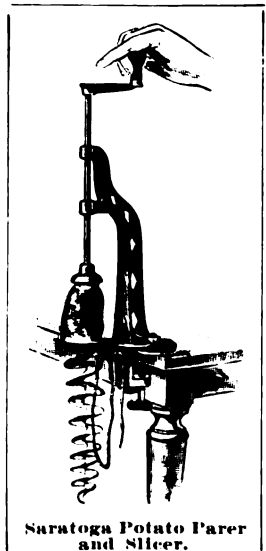

Cahoon Seed Sower.

Eureka Power Parers.

Family Cherry Stoner.

Saratoga Potato Parer and Slicer.
